## 👤 ABOUT ME

As a Computer Engineer, I am enthusiastic about diving into real-world projects and further honing my skills. I thrive in dynamic environments where collaboration and learning opportunities abound, and I am committed to contributing my best to the team's success. With a strong determination to grow and adapt, I am ready to embark on this exciting journey of professional development.

## 🏠 PROJECTS

### Online Art Gallery

September 2022 - Actual:

Led a collaborative effort to build a dynamic online art gallery using HTML, CSS, and PHP, merging creativity with technical expertise. Crafted an immersive user experience that celebrates diverse artworks and fosters community engagement. The project showcases a seamless integration of aesthetics and functionality, reflecting a passion for both art and technology.

### Personal Portfolio

February 2024 - March 2024:

Designed and developed a personal portfolio website utilizing HTML, CSS, and JavaScript to showcase my skills, projects, and achievements in a visually captivating manner. Implemented interactive elements and smooth transitions to engage visitors and provide a seamless browsing experience. The website serves as a dynamic digital hub, reflecting my passion for web development and commitment to professional excellence.
